Summary

Hello, my name is Mohamed Shaheed A. I am a self-taught front-end developer. I primarily focus on writing clean, elegant, and efficient code. I am proficient in HTML, CSS, JavaScript and React. Over the past 6 Months, I have primarily worked for companies as a intern that specialize in enterprise web applications.

Projects :

1.CresChat :

It was my final year college project , Basically our project was a organized social media for students. our primary goal is to make a interaction between students and professors in our website, in which you can post questions , doubts and professors can clear your doubts and questions. And another feature is professors can post something use full posts like related to education articles, blogs ect...

Technologies Worked With :

Frontend Tools : HTML, CSS, Javascript,

Backend Tools : Node.js, Express.js,

Database: mongo DB.
